

# RG Looper

by JM Products, U.S.A.

Overview of Connections: (Top Down)

Both Channel

Green channel has amp on clean,  
and loop 1 on, loop 2 off

Red channel has amp on dirty,  
loop 1 off, loop 1 on

When "Both" is selected, the signal  
path is as follows: in, loop 1, loop 2, out

Leds powered by amp, Switching powered by external power supply.

RG Looper can be used standalone as a looper (With power supply),  
or as an amp switcher (No power supply needed).
